

Plant Leaves Shipping Instructions:

Choose freshly harvested young plant tissue (usually leaves). Clean the leaves of dirt and other debris before packaging.

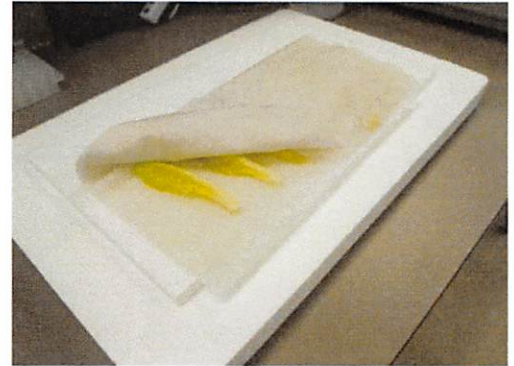

YES	NO 
Young	Mature
Crisp, intact	Wilted, bruised
Tender	Tough
Dark-treated (pale)	Not dark-treated (very green)
Newly harvested	Old (not fresh)
Clean	Dirty

Place fresh leaves on a stack of moist paper towels. Spread them out into a single layer.

Cover with more moist paper towels.

YES	NO 
Moist towels	Dry or dripping wet towels
Single layer of leaves	Piled/stacked leaves

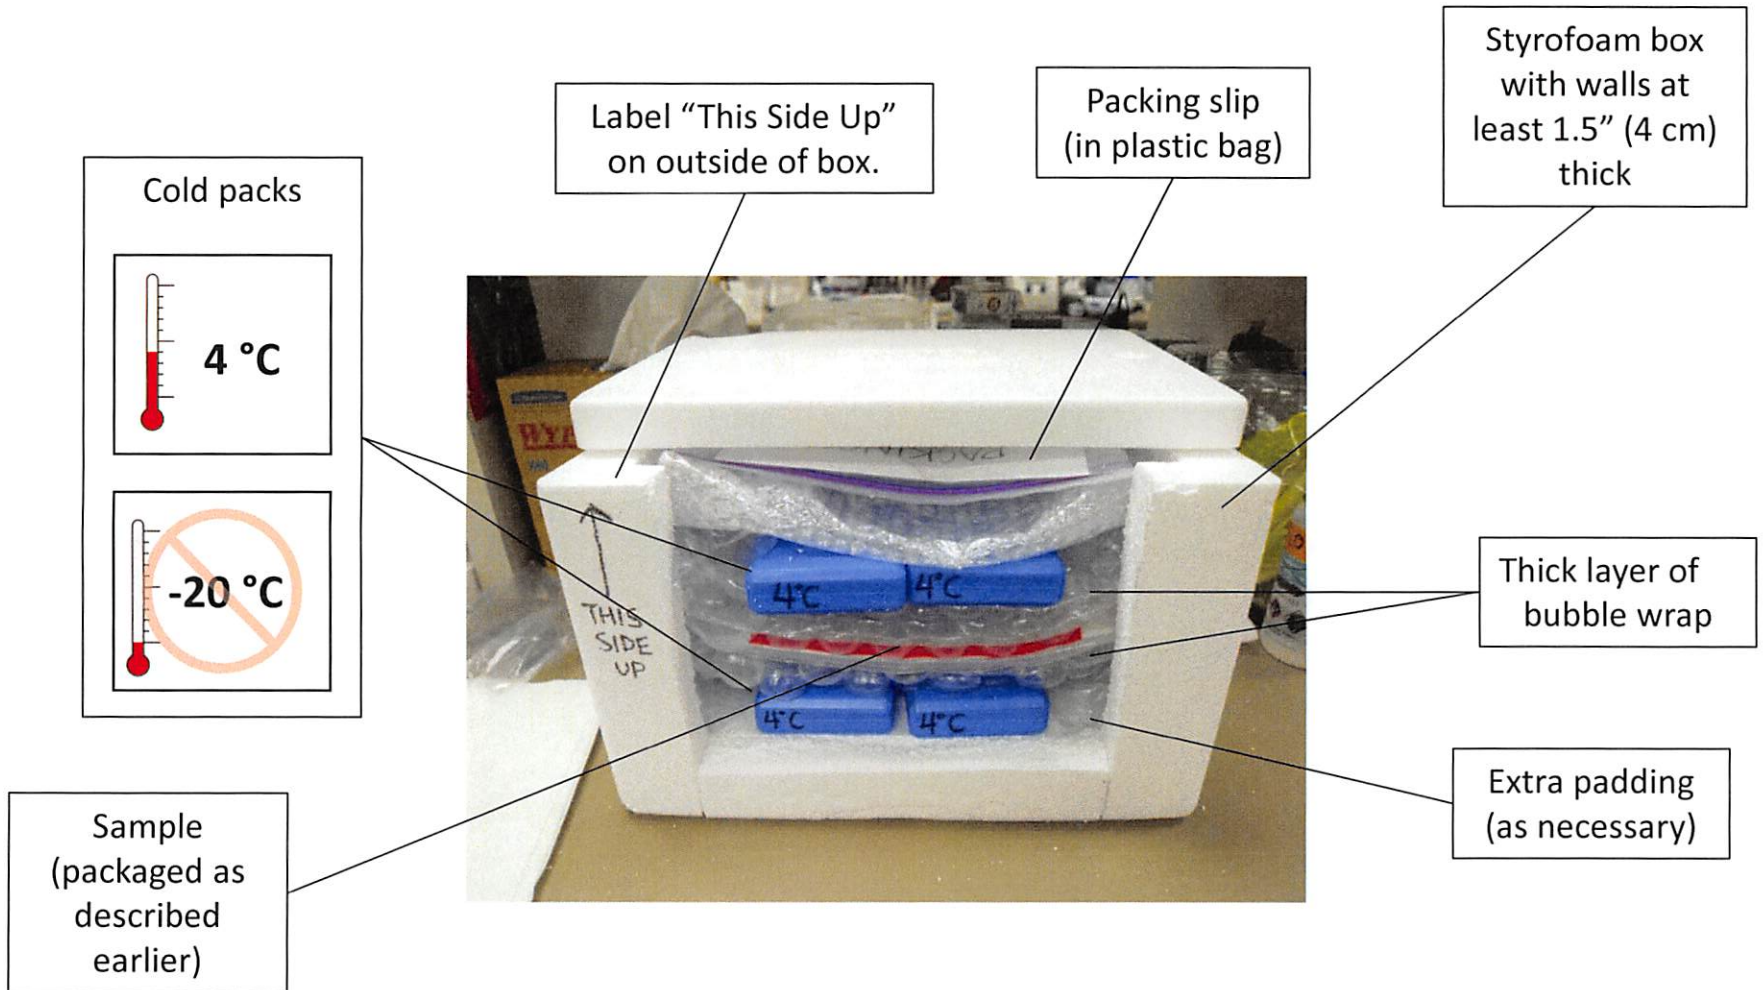

Do not stack leaves!

Insert wrapped leaves into plastic zipper storage bag. Gently squeeze out the air and close the zipper.

Package it like this:

⊘ DO NOT package it like this:

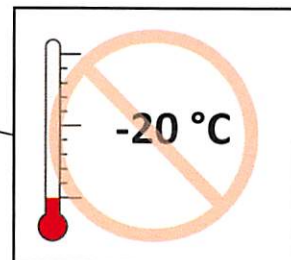

Cold packs directly touching sample (causes bruising and freezer burn).

Sample on bottom of package (causes crushing/bruising).

Cold packs that are lower than 4 °C can result in a freeze-thawed sample.

Please use overnight shipping (or fastest possible).
